Vision:

Our aim is to give children an enjoyable and exciting introduction to a new language and culture. They will develop linguistic skills which will deepen their understanding of the English language as well as build their confidence. By fostering their curiosity, we hope to develop a lifelong love and appreciation of language which will stand them in good stead for the future.

“If you talk to a man in a language he understands, that goes to his head. If you talk to him in his language that goes to his heart.” Nelson Mandela
